

Pierides TechnoSystems SA – Company Profile

About our Company

story

Operating as a Systems Integrator & Distributor in the Broadcasting Industry as well as Telecoms since 1996, PTS has become a leading company by distributing equipment and providing innovative solutions in SEE.

mission

Through more than 25 years of development, PTS has scaled up its operation and managed to break away from the traditional role of “international distributor”, focusing on creating solutions that adjust perfectly on our customers needs as well as on the demands of the market.

vision

In the forthcoming decade, the Broadcasting Industry and the broader economy will be transformed by the increasing demand for global integration, digital transformation and innovation.

values

Our strategy is to create value for our customers and remain a cutting-edge integrator, with innovative and technologically advanced solutions, leading them to the new digital era.
